

AIC Quick User Guide – Searching for Equipment

Ver. 1.1

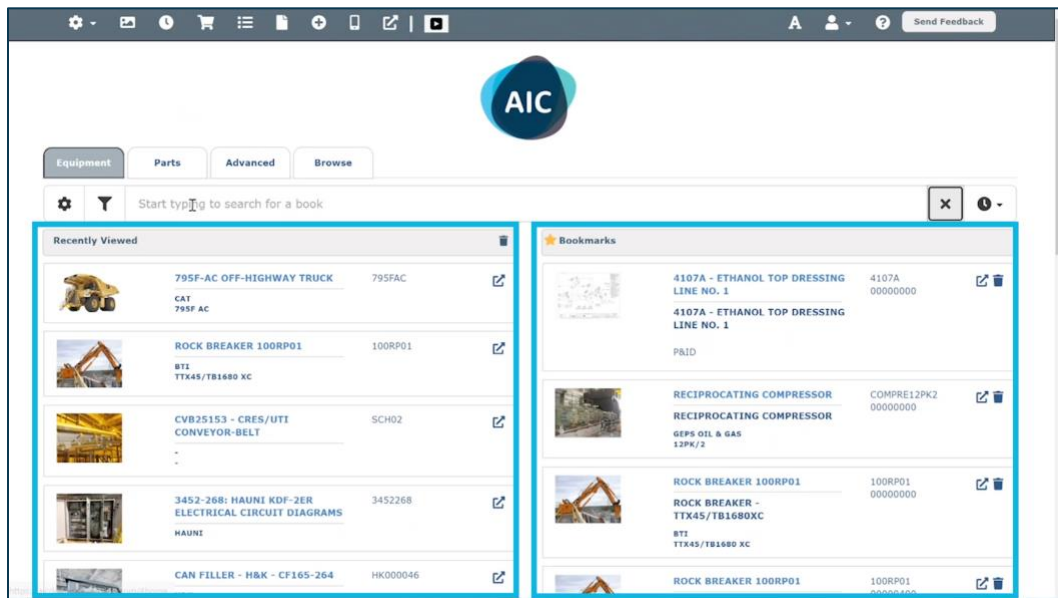

AIC Quick User Guide – Searching for Equipment

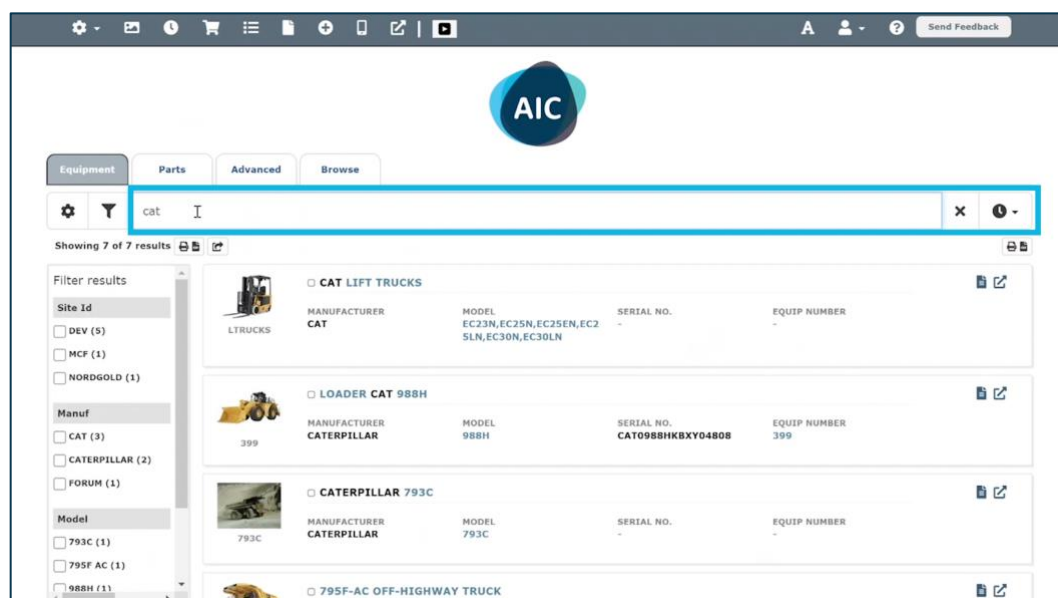

The Homepage provides multiple ways to search for equipment.

- On the Homepage we can see Recently Viewed Equipment on the right and Bookmarks on the left

1. Google like search using the **Equipment** search tab:

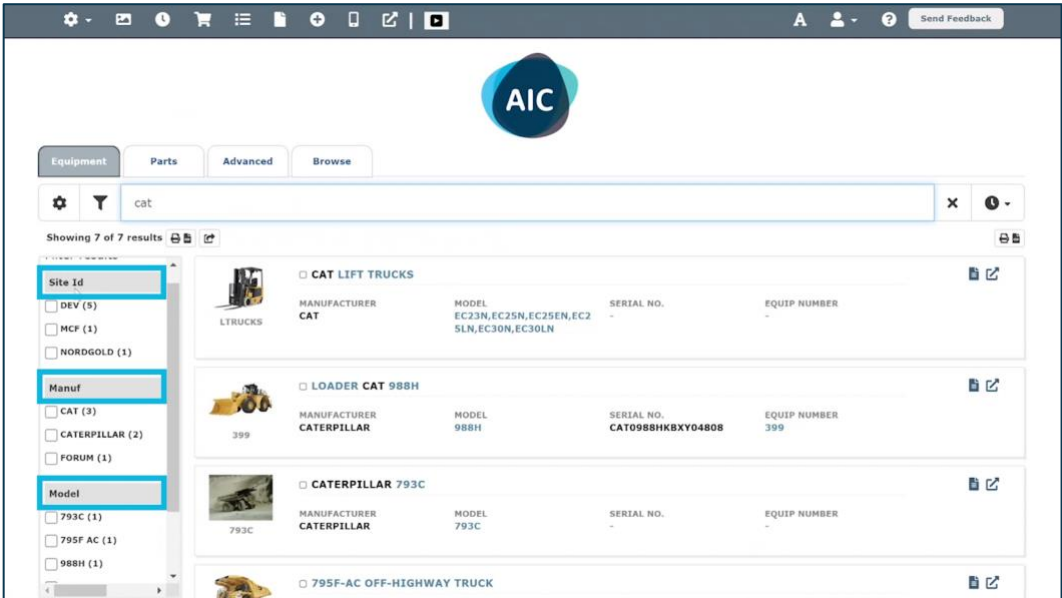

- Search anything you know about the equipment. Either an Equipment number, name of manufacturer, serial number or any other known attribute, even a combination of any of the above.

- b. Use filters if needed to narrow the search results (select make, model, site, line, etc.).

- 2. In some cases, using a Visual process flow chart.
